SUMMARY

- Enthusiast Full-Stack Developer focusing more on Frontend development with 2.5 years of experience
- Excels in building an application from conception to deployment using React, NodeJS, AWS, and CI/CD pipeline..
- Currently enrolled in Bootcamp/internship(s) focusing on CloudNative Software Development with AWS/GCP Cloud.

EDUCATION

Federal Polytechnic Ede – Ede, Nigeria.
HND, Computer Engineering.

February 2016 – May 2022

WORK EXPERIENCE

Software Engineer Intern.

February 2022 - Present

ALX AFRICA – Remote.

- Broken down Monolith full-stack application into microservices and deployed each microservices unit to the cloud which can serve many users with 99.9% uptime and low latency using CI/CD pipeline and DevOps toolings.
- Developed and deployed a serverless REST API using AWS API Gateway and AWS Lambda functions and serve the API endpoint to React frontend applications which can handle high traffic from end users.

Frontend Developer

February 2020 - January 2022

Self-employed and Freelance – Osogbo, Nigeria.

- Consulted with clients to gather project requirements and discuss design choices of the web and mobile application project.
- Skillfully managed administrative responsibilities of clients' websites including maintenance issues, incident reports, data/content creation, handling of confidential information, and upgrading website codebase. Received outstanding feedback ratings.

WordPress Web Developer

May 2019 - February 2020

BeeSpeed Technology – Remote within Nigeria.

- Helped and Introduced new plug-ins and extensions to make websites more usable and interactive.
- Developed Clients' websites using Elementor Pro and Elementor WordPress builder and researched content that match each website's purpose in the absence of no content provided by the clients.

VOLUNTEER ACTIVITIES

Student Tutor, Federal Polytechnic Ede.

March 2017 - May 2018

Enabling 20+ colleagues and juniors to successfully overcome challenges faced in their educational journeys through intensive exam-focused tutorials and tips.

Ambassador, FPE SUG

March 2021 - May 2022

Actively represent my department with a team of 5 other ambassadors of faculty of engineering to be the voice of the students in demanding rights and privileges from school administrators with the power of the student union government.
